

# Bad Weather Policy

**If in doubt – call the Pool 770-495-9177**

## **During Practices After School**

If there is severe weather (i.e. thunder & lightening and/or heavy rain) anytime after 3:30, all afternoon practices will be cancelled.

If it is raining but not very hard, practice might still be run.

Note: If one practice is cancelled after school, the remaining practices (that day) will be cancelled as well.

## **During Summer Practices**

If there is severe weather (i.e. thunder & lightening and/or heavy rain) within 15 minutes, of your child's practice start time, that practice will be cancelled

If it is raining but not very hard, practice might still be run

Note: It is possible that an early practice might be cancelled because of severe weather but a later practice might still be run if the weather clears.

## **Before or During a Meet**

**Meets are not cancelled before the start time**; usually they are delayed until the weather clears off or cancelled when it is too late to start the meet. Therefore, ***swimmers need to report to all meets regardless of the weather.***
